

Completely refreshed for 2025, we are delighted to launch 10 brand new styles to the Project 100 Sunglasses Collection. The 2025 updates include beautiful greens, mottle acetates, a sprinkle of sparkle and two timeless metal designs.

All styles are priced at just £13.95. Every frame comes with polarised lenses with a rear anti-reflective coating meaning they can be sold as plano from display, as well as every model being suitable for glazing, should you patient want a prescription adding.

The collection comes as a complete pack of 10 pieces, and you can then order frame only replenishment on a SKU by SKU basis from Arena. All models will be stocked at Aspire, enabling you to order these frames with Aspire lenses as a complete glazed package, saving time and money on replenishment orders.

To order, please visit www.arena-eyewear.co.uk/hg, or call 01952 820408 with any questions.
